

## HELPING MAKE NEXTGEN A REALITY FOR AVIATION

With growing delays and cancellations of flights, over congestion in the airways, and an ever increasing number of flight patterns the current air traffic control system is taxed beyond its limits. ISCI will help facilitate the FAA's NextGen initiative to provide long-term advanced technology solutions by transforming all three components of aviation traffic – airports, aircraft, and air traffic control. ISCI can assist in developing, testing, and implementing each major technology area to provide a more efficient and safer aviation management system. From Automatic Dependent Surveillance Broadcast, Required Navigation Performance, System Wide Information Management, Enhanced Flight Vision System, Network Enabled Weather System, Airport Surface Detection Equipment System, and Data Communications, the ISCI team offers customized technology solutions that will enable the new aviation system to easily expand far into the future.

As an industry partner, ISCI currently provides performance-based technology solutions to government agencies. Now as an **eFAST** preferred acquisition program participant, ISCI can help fulfill agency small business goals with this rapid streamlined procurement process –

### Contracts

- *Corps of Engineers (prime)*
- *R2-3G (sub)*
- *Navy SEAPORTE (sub)*
- *NAVSEA (sub)*
- *PMBC (sub)*
- *BOSS-U (sub)*

SOLUTIONS**

A Proud Participant In The  
FAA's eFAST Program

*A Preferred Acquisition Vehicle For Small Business Solutions*

## FULFILLING SMALL BUSINESS GOALS THROUGH FAA eFAST

To help agencies satisfy their small business requirements, and to simplify and accelerate the bid/award process, the FAA has established the **eFAST** preferred solution. **eFAST** will help both agency and contractor accomplish the following –

- *Preferred acquisition vehicle for fulfilling agency small business goals.*
- *Streamline new contract awards. Direct awards to Small Business 8(a), Service-Disabled Veteran-Owned Businesses, and Alaskan Native Corporations.*
- *Processes are automated and structured to facilitate rapid procurements and efficient administration.*
- *eFAST is an agency-wide acquisition vehicle. It can be used by ALL FAA organizations and other federal agencies when in the best interest of the government.*

## ISCI QUALIFIES IN THE BUSINESS ADMINISTRATION & MANAGEMENT FUNCTIONAL AREA SUPPORTING THE DEMANDS OF TODAY'S e-GOVERNMENT

The small business partners that participate in the **eFAST** preferred acquisition program are pre-qualified to provide services in selected service categories.

ISCI is proud to be a full service provider pre-qualified for **Business Administration and Management**.

Other areas covered in the e-FAST preferred acquisition program are listed below:

- *Air Transportation Support*
- *Research and Development*
- *Services Engineering*
